Scraping :

-Script subtitles vidéo youtube

`yt_subtitles.py`

-Script Dexerto pour obtenir les prochaines dates de sortie

`get_latest_scan.py`

-Script X pour obtenir les prochaines dates de sortie

`working_x_scrap.py`

DB : SQLite storage

`add_db.py`

`db.py`

`text_schema.sql`

AI : Llama 3.3-70b (Dextero)

llm_summary.py

```
- > Prompt Dextero:
    '- **Synthesize the informations**'
    ' Below you will find the reasons why the last One Piece scan is not available.'
    ' Using theses informations you will write a paragraph to explain the situation to one piece fans.'
    ' You wil write a paragraph that clearly explains the reasons that caused the problem.'
    ' If informations on the new release date is available, you should include it in your explanation.'
    ' You will only write the explanations in quote and do not write any introduction phrase before.'
    ' Your answers should always contain close to 500 characters.'

- > Prompt Subtitles:
    ' Below you will find a subtitle from a video.'
    ' Using theses informations you will write a paragraph to explain the situation.'
    ' You will write a paragraph that clearly summarize the chapter to the fans with an hype intonation'
    ' Moreover, you will graduate the chapter on 10 in function of the sentiment of speaker in the video'
    ' Your answers should always contain close to 2000 characters.'

- > Prompt x:
    Synthesize informations and save the response
